Clean Air -The Vital Ingredient to Food and Beverage Manufacturing

 **14 March 2018**  **3PM GMT**

Feb 27, 2018 15:17 CET

Camfil Announces March 14th Webinar: Clean Air - The Vital Ingredient to Food and Beverage Manufacturing

Camfil – February 26, 2018

Camfil, the leader in clean air solutions, announced a series of webinars aimed at educating customers on the importance of Indoor Air Quality (IAQ). The second webinar, set for the 14th of March at 3:00 pm GMT, will be titled *Clean Air – The Vital Ingredient to Food and Beverage Manufacturing*.

Air is the only ingredient that's involved in every aspect of Food and Beverage Manufacturing. Air comes into contact with products from raw

material storage all the way to packaging. During this webinar, Camfil will discuss:

- 1.Regulations regarding air quality within food and beverage facilities
- 2.How to protect against cross contamination
- 3.How clean air can improve product shelf life
- 4.Importance of clean air in protecting your employees

Keynote speakers include Patrik Jansson, Ross Dumigan and Kassy Marsh. Jansson, Global Product Manager Camfil, specializes in identifying and reducing internal contaminants within food and beverage manufacturing plants. Working with world leading producers has allowed Jansson to gain valuable knowledge of air quality requirement within these facilities. Ross Dumigan, Food and Beverage Segment Manager Camfil, has over 15 years of experience in the industry. Ross understands the clean air requirements in Food and Beverage facilities and engages with standard committees to ensure air quality standards are improved globally. Kassie Marsh, Director of Techni-K Consulting, started her own training and consultancy agency in 2012. She has become well regarded in the field of food safety risk assessment and specializes in the GFSI recognized standards. Kassie also authored multiple books on similar topics.

For more than half a century, Camfil has been helping people breathe cleaner air. As a leading manufacturer of premium clean air solutions, we provide commercial and industrial systems for air filtration and air pollution control that improve worker and equipment productivity, minimize energy use, and benefit human health and the environment. We firmly believe that the best solutions for our customers are the best solutions for our planet, too. That's why every step of the way – from design to delivery and across the product life cycle – we consider the impact of what we do on people and on the world around us. Through a fresh approach to problem-solving, innovative design, precise process control and a strong customer focus we aim to conserve more, use less and find better ways – so we can all breathe easier.

The Camfil Group is headquartered in Stockholm, Sweden, and has 28 manufacturing sites, six R&D centres, local sales offices in 26 countries, and 4,180 employees and growing. We proudly serve and support customers in a wide variety of industries and in communities across the world. To discover how Camfil can help you to protect people, processes and the environment, visit us at www.camfil.com.
