## Camfil expands UK market leading position with the acquisition of MC Air Filtration

Camfil AB is proud to announce the acquisition of the UK group of companies Bushbury Holdings of which M.C. Air Filtration represents the largest company.

The family owned business was established in Gillingham, Kent in 1974. As a leading expert in high efficiency extraction and supply air systems, MCAF's expertise lies in protecting personnel from particulate and toxic contaminants within key sectors including nuclear, bio tech, pharmaceutical

and medical research.

M.C. Air Filtration's specialist product line will complement Camfil's extensive portfolio of safety and containment products throughout the world.

"I am very pleased to welcome MCAF to the Camfil family." Mark Simmons, EVP Filter CEBI and CEO designate said "it will enhance Camfil's leading position both in the UK and beyond"

---

For more than half a century, Camfil has been helping people breathe cleaner air. As a leading manufacturer of premium clean air solutions, we provide commercial and industrial systems for air filtration and air pollution control that improve worker and equipment productivity, minimize energy use, and benefit human health and the environment. We firmly believe that the best solutions for our customers are the best solutions for our planet, too. That's why every step of the way – from design to delivery and across the product life cycle – we consider the impact of what we do on people and on the world around us. Through a fresh approach to problem-solving, innovative design, precise process control and a strong customer focus we aim to conserve more, use less and find better ways – so we can all breathe easier.

The Camfil Group is headquartered in Stockholm, Sweden, and has 28 manufacturing sites, six R&D centres, local sales offices in 26 countries, and 4,180 employees and growing. We proudly serve and support customers in a wide variety of industries and in communities across the world. To discover how Camfil can help you to protect people, processes and the environment, visit us at [www.camfil.com](http://www.camfil.com).
