Camfil sponsors Swedish pavilion at Expo 2020

Leading manufacturer and supplier of air filters and clean air solutions Camfil is sponsoring Sweden's pavilion at the Expo 2020 exhibition – billed as 'the world's greatest show' – which is set to take place in Dubai, United Arab Emirates from October 20, 2020, lasting for six months.

The theme of the Swedish pavilion, which is made entirely from wood, is 'The Forest'. To mark the start of its construction in early October this year and reflecting its eco-friendly theme, Swedish Minister for Foreign Trade, Anna Hallberg, planted a number of trees in the pavilion.

Mark Simmons, CEO and President of Camfil Group said: “As the leading manufacturer of premium clean air solutions, sponsoring the Swedish pavilion at Expo 2020 will enable us to demonstrate our powerful commitment to sustainability. We steadfastly believe that the best solutions for our customers are the best solutions for our planet too.”

“It also offers us the opportunity to showcase our pioneering products and systems which are designed to improve air quality and quality of life for our customers – everything from filtration solutions to pollution control, molecular contamination control and power generation.”

“We look forward to welcoming guests, partners and other visitors to a range of activities we plan to organise throughout the exhibition.”

Camfil’s sponsorship of the Swedish pavilion is in collaboration with its partner, Systemair Group, which is supplying the air handling units that will showcase Camfil’s ground-breaking filters and air cleaners.

The Camfil Group is headquartered in Stockholm, Sweden, and has 30 manufacturing sites, six R&D centres, local sales offices in 26 countries, and 4,480 employees and growing.

Its mission is to protect people, processes and the environment by defining, developing and delivering solutions that combine clean air with energy efficiency in a sustainable and profitable way.

Showing the very best of Swedish innovation, Sweden’s pavilion comprises a total area of around 2,700 sq m. It includes a general exhibition section, a closed conference area, a shop and a café as well as office and staff areas.

Expo 2020 Dubai is expected to welcome 25 million visits from around the world with almost 200 countries participating in the event.

For more than half a century, Camfil has been helping people breathe cleaner air. As a leading manufacturer of premium clean air solutions, we provide commercial and industrial systems for air filtration and air pollution control that improve worker and equipment productivity, minimize energy use, and benefit human health and the environment. We firmly believe that the best

solutions for our customers are the best solutions for our planet, too. That's why every step of the way – from design to delivery and across the product life cycle – we consider the impact of what we do on people and on the world around us. Through a fresh approach to problem-solving, innovative design, precise process control and a strong customer focus we aim to conserve more, use less and find better ways – so we can all breathe easier.

The Camfil Group is headquartered in Stockholm, Sweden, and has 30 manufacturing sites, six R&D centres, local sales offices in 26 countries, and 4,480 employees and growing. We proudly serve and support customers in a wide variety of industries and in communities across the world.
