Camfil Strengthens Global Footprint with New Presence in Nepal

Stockholm, Sweden – April 3, 2025 Camfil has broadened its global operations by establishing a presence in Nepal, marking a significant milestone in its mission to deliver clean air solutions worldwide. This expansion reinforces Camfil’s commitment to supporting healthier and more sustainable environments globally.

Rahul Kapoor, Managing Director of Camfil India, shared his thoughts on the development: “Nepal offers exciting potential across a number of sectors, including healthcare, pharmaceuticals, manufacturing, data centres, and

hospitality. With growing awareness around air quality and its impact on both health and productivity, Camfil's solutions will play an important role in helping organisations achieve high standards of indoor air quality. This initiative supports our belief that clean air should be a basic human right."

As part of the market entry phase, Camfil's team connected with key stakeholders in Nepal, highlighting the importance of clean air and introducing its cutting-edge air filtration technologies. In Nepal, Camfil's offering will include Comfort Air Filtration, Clean Process Solutions, Indoor Air Quality Management, Molecular Contamination Control, and Air Pollution Control.

To ensure strong local support and service delivery, Camfil has partnered with an authorised distributor in Nepal to supply its world-class air filtration products and services. Reflecting on the company's strategic focus in the region, Jayant Kaushal, Deputy President (APAC), said: "Camfil's expansion into Nepal is a clear sign of our commitment to advancing air quality solutions across South Asia. As India moves forward with the adoption of IS 17570:2021/ISO 16890:2016 standards, this growth enables us to support industries and communities throughout the region even more effectively."

With this expansion, Camfil continues to strengthen its South Asian footprint, providing innovative air filtration solutions that contribute to healthier, more sustainable environments for all.

The Camfil Group is headquartered in Stockholm, Sweden, and has 29 manufacturing sites, six R&D centres, local sales offices in **35+** countries, and **5,700** employees and growing. We proudly serve and support customers in a wide variety of industries and in communities across the world.
